WEB DEVELOPER

09/2010 – 09/2012

comScore Inc, Chicago, IL

- Tech lead of Advertising Effectiveness (AdEffx) UI project to develop the online system of campaign effectiveness reporting, optimization, and in-flight planning.
- UI lead of XMedia, a web tool that provides un-duplicated audience measurement across TV content and digital media.
- UI lead of Media Metrix Rewrite project. I rewrote the legacy Media Metrix system to take advantage of the latest technologies in web development, such as Asp .net MVC, JavaScript MVC, Ext js MVC framework
- Project lead of Direct, a self-service web portal for managing digital content measurement
- Lead developer of comScore Inspector (a chrome extension for internal users to inspect comScore tagging), using Google chrome dev tool api, jQuery and highcharts library.

Highlights:

- Agile Project management: Work with product managers to gather requirements, break down large system into small modules; Work with developers on time management and task assignment; Conduct team scrum meetings.
- Code quality control through extensive unit testing and code reviews, manage project release cycle by using Jenkins pipeline and modern build technologies;
- Product development:
 - Developed a suite of JavaScript modules (extending from Ext Js library);
 - Created Charting modules using highcharts libraries;

- Backend data modules used a combination of sql and mdx queries
- Created common code modules, web services that can be consumed across multiple projects

SENIOR WEB DEVELOPER
Gibson Consulting LLC, Chicago, IL

4/2009 – 9/2010

- Developed the following web solutions:
 - A new Dover Global Metals RFI and RFQ website;
 - A new Dover Health & Benefits website;
 - A new Dover SSIIP Op-Co Survey website;
 - A new Dover SSIIP RFI and RFQ websites;
 - A new Gibson Media Group Presentation Tracking Site;
- Highlights:
 - Created a set of reusable web modules: RFI, RFQ, RSVP, Site Visit Management, Tracking, Note Taking and Reporting
 - Created a survey engine
 - Developed DEEP (a platform that provides data extraction, evaluation, and validation and consolidation of data from Diverse Sources –and export/upload to other systems)

CONSULTANT
DotNetSlackers.com, Canada

5/2008 – 3/2010

- Moderated and contributed to DotNetSlackers website, a web site for .NET news and articles, blogs and .NET forums.
- A member of the development team responsible for the revisions and improvement of AJAX Data Controls (ADC), a set of client side AJAX data controls that have earned wide recognition among asp .net developers (In March 2009, MSDN magazine has given a prominent review of the ADC controls). We used such techniques as: ASP .net web services, ASP .NET AJAX and jQuery.
