EMPLOYMENT HISTORY

STAFF WEB DEVELOPER	03/2015 – Present
SENIOR WEB DEVELOPER	09/2012 – 03/2015
WEB DEVELOPER	09/2010 – 09/2012

comScore Inc, Chicago, IL

- Tech lead of Advertising Effectiveness (AdEffx) UI project to develop the online system of campaign effectiveness reporting, optimization, and in-flight planning.
- UI lead of xmedia, a web tool that provides un-duplicated audience measurement across TV content and digital media
- UI lead of Media Metrix Rewrite project. Rewrote the legacy Media Metrix system to take advantage of the latest technologies in web development, such as Asp .net MVC, JavaScript MVC.
- Project lead and major UI developer of Direct, a self-service web portal for managing digital content (web, video, mobile app) measurement.
- Using the latest Sencha technologies and Ext js to build a JavaScript UI component library specific to comScore's needs. Sample components include: Infinite grid, row context menu.
- Lead developer of comScore Inspector (a chrome extension for internal users to inspect comScore tagging) using Google chrome dev tool api, jQuery and highcharts library.

Highlights:

- Agile Project management: Work with product managers to gather requirements, break down large system into small modules; Work with developers on time management and task assignment; Conduct team scrum meetings to exchange status updates
- Code quality control through extensive unit testing and code reviews, manage project release cycle by using Jenkins pipeline;
- Product development:
 - Developed a suite of JavaScript modules (extending from Ext Js library);
 - Created Charting modules using highcharts libraries;
 - Using Ext js MVC framework
 - Backend data modules used a combination of sql and mdx queries
 - Created common code modules, web services that can be consumed across multiple projects

SENIOR WEB DEVELOPER **4/2009 – 9/2010**

Gibson Consulting LLC, Chicago, IL

- Developed the following web solutions:

- A new Dover Global Metals RFI and RFQ website;
- A new Dover Health & Benefits website;
- A new Dover SSIIP Op-Co Survey website;
- A new Dover SSIIP RFI and RFQ websites;
- A new Gibson Media Group Presentation Tracking Site;

Highlights:

- Created a set of web modules (RFI, RFQ, RSVP, Site Visit Management, Tracking, Note Taking and Reporting) that have been used by all projects.
- Created a survey engine and survey reporting suite.
- Developed DEEP (*a platform that provides data extraction, evaluation, and validation and consolidation of data from Diverse Sources –and export/upload to other systems*) with comprehensive data reporting modules.

PART TIME CONSULTANT, DEVELOPER 5/2008 – 3/2010

DotNetSlackers.com, Canada

- Moderator and contributor of DotNetSlackers website, a prestigious web site for .NET news and articles, blogs and .NET forums.
- A member of the development team responsible for the revisions and improvement of AJAX Data Controls (ADC), a set of client side AJAX data controls that have earned wide recognition among asp .net developers (In March 2009, MSDN magazine has given a prominent review of the ADC controls). We used such techniques as: ASP .net web services, ASP .NET AJAX and jQuery.
